

We have hired Advisio to get psychological "know how" and supervision over design and development of our training services. Project was prepared on time and in a very useful manner. Implementing it into our tools was with Advisio assistance very easy and straightforward. Facilitation of the cooperation process left no room for misunderstanding. I surely recommend Advisio both from psychological proficiency perspective and professional approach to work. We look forward to more collaboration in the future.

A handwritten signature in black ink, appearing to read 'Dag W. Haugeto Stang', with a long, sweeping flourish at the end.
